

THE NEW CHALLENGE

The RX line has been developed having in mind a new challenge: the design and implementation of something special that could convey new emotions to both the enthusiastic shooters and those who just want to have fun in the open air or at the shooting range. The RX represents the perfect match between technological style, technical efficiency and care for details. The elegant and ergonomic shapes makes the gun fit perfectly to the shooter. Stoeger AIRGUNS and its new RX line translate technology in style.

The new RX Line is the first compressed air rifle inspired by Urbino, a world heritage city, the cradle of Humanism. With the new RX line, Stoeger AIRGUNS combines Urbino's technical inspiration with the innovative vision of Milan's designers whose experience in Industrial Design (ID) and User Experience (UX) is able to transform their technical inspirations into solid and attractive projects. Just thanks to this combination, Stoeger AIRGUNS creates a new method, based on 3 sound compact concepts: **Functional Ergonomics, User Interaction study, User Experience.**

Stoeger AIRGUNS **ProAdaptive Checkering** is the first technical result of our new "Human Tech Design" philosophy. It is the most versatile, efficient and progressive checkering developed so far, one of a kind. It is the result of a project which let shooters expose themselves to a new experience, become one with the airgun and find a perfect feeling with it. The special checkering progression actively and comfortably "fits" the gun, no matter the environment shooters find themselves in.

RX5 - COMPACT PERFORMANCE

Human Tech Design philosophy translated to a compact and light, easy to handle air rifle with RX aesthetics and functional innovations – to approach the world of air rifles and fun outdoor shooting.

Safety Button with ProAdaptive Checkering

Recoil absorbing pad with ProAdaptive anti slip checkering

Front sight with fiber optic

RX5 - TECHNICAL FEATURES

| | |
|--|--|
| Caliber | 4,5 mm /.177 - 5,5 mm /.22 |
| Power source | Spring piston |
| Cocking system | Break-action breech-loader with ergonomic cocking grip |
| Trigger | Double stage - factory set |
| Safety | Automatic, ambidextrous safety mounted on back of receiver |
| Front sight | Hooded front sight with a red, fiber-optic insert |
| Rear sight | Fiber-optic, fully adjustable for elevation and windage |
| Stock | Human Tech Design Stock with ProAdaptive Checkering |
| Finish | Black Synthetic - Rifled, blued steel barrel |
| Rail for scope | Integral dovetail scope rail on receiver |
| Scope for combo | 4x32 with high power mount |
| Total length | 41 in. / 1.030 mm |
| Barrel length | 16 ^{1/2} in./420 mm |
| Weight | 2,4 kg without scope |
| Velocity cal.4,5 mm with alloy pellet | 245 m/s - 810 fps |
| Velocity cal.4,5 mm with lead pellet | 200 m/s - 660 fps |
| Velocity cal.5,5 mm with lead pellet | 150 m/s - 500 fps |
