Stoeger AIRGUNS
is the Brand launched in 2008
by the prestigious industrial **BERETTA HOLDING**

on the international airgun market,
a new niche for the company,
using synergy of Italian Engineering and Design,
Beretta Group experience in the hunting,
shooting and optic industries, production
plants and own Beretta distribution forces.
A team of italian designers and
engineers are permanently
developing new products.

Stoeger AIRGUNS
is the exclusive
BERETTA HOLDING
Brand in the field
of compressed
air shooting.

STOEGER AIRGUNS MISSION

Stoeger AIRGUNS mission is to offer innovative design, advanced ergonomics, fascinating models with excellent ballistic performance at the right price. Our vision is permanent innovation and development of new airgun lines motivating young people to approach the world of hunting and shooting in training by handling air guns and start to develop a proper shooting technique.

DESIGN AND PRODUCT DEVELOPMENT

Innovation in design is the brand's rooted pillar in our ability to understand consumer needs, tastes and aspirations. Italian designers and engineers are constantly engaged to create new possible models where stylistic innovation is combined with functionality. Determined proportions, clear contours, precise lines and pure surfaces are characteristics of Stoeger AIRGUNS design. Design is the focal point where vision, creative inspiration and technology converge. At every phase of the process, from design to industrialization, Stoeger AIRGUNS performs rigorously and tests the quality with precision.

INNOVATION AS A MUST

Stoeger AIRGUNS is synonymous with Innovation and Italian Design. The Airguns are exclusive, sensual, provocative and always unmistakably Italian. In fact, all our models are entirely idealized and designed in Italy. Stoeger AIRGUNS has always been the creator of dynamic and unrivalled rifles.

SPORTING HEART

Stoeger AIRGUNS rifles are recreational air rifles to have fun, to enjoy the first experience of hunting and shooting. Enjoy the nature, feel good and take up a different air rifle. Our rifles are incomparable through their blend of Fascinating Design and Supreme Shooting Ergonomics.

OUR PHILOSOPHY

Stoeger AIRGUNS has always in mind the design and implementation of something special that could convey new emotions to the shooters. The Stoeger AIRGUNS brand has a cutting-edge, distinct and streamlined design with multiple souls: Sporty, Elegant and Innovative.

DESIGNED IN ITALY

HUMAN TECH DESIGN

With its new Lines, Stoeger AIRGUNS creates the first compressed air rifles inspired by Urbino in Italy, a world heritage city, the cradle of Humanism. Stoeger AIRGUNS combines Urbino's technical inspiration with the innovative vision of Milan's designers whose experience in Industrial Design (ID) and User Experience (UX) is able to transform their technical inspirations into solid and attractive projects. Just thanks to this combination, Stoeger AIRGUNS creates a new method, based on 3 sound compact concepts: Functional Ergonomics, User Interaction Study, User Experience.

PRO ADAPTIVE CHECKERING

Stoeger AIRGUNS Pro Adaptive Checkering is the first technical result of our new "Human Tech Design" philosophy. It is the most versatile, efficient and progressive checkering developed so far, one of a kind. It is the result of a project which let shooters expose themselves to a new experience, become one with the airgun and find a perfect feeling with it. The special checkering progression actively and comfortably "fits" the gun, no matter the environment shooters find themselves in.

MULTI GRIP SYSTEM

Stoeger AIRGUNS offers a shooter the choice of the favourite grip and comfort thanks to the new Multi Grip System technology which, by means of an easy and intelligent system, let the rifle be customized. Finally, shooters can adapt the rifle to their own style. Stoeger AIRGUNS rifles are incomparable through their blend of: Fascinating Design, Supreme Shooting Ergonomics, Innovative Style, Technological Capability and Quality.

BEST ACCURACY

Stoeger AIRGUNS XM1 PCP rifles high precision and best accuracy: every Stoeger AIRGUNS XM1 PCP rifle is accuracy-tested to certify your rifle can perform the best accuracy in its category with a 5 shot group. Ammunition used: Stoeger AIRGUNS X-Sport / Stoeger AIRGUNS X-Match; Distance: 10 m; Power of the rifle: Full Power; N° of shots: 5.

XM1 SPORT ADVANCED ACCURACY

The Italian design of the SPORT muzzle brake allow the rifle to be more accurate on target by reducing the turbulence behind the pellets, in order to meet the competition shooter needs.

XM1 SPORT MATCH TRIGGER

The XM1 SPORT match trigger allows the shooter to find the best comfort trigger position in order to achieve the best target acquisition. The length of pull (max. range of 20 mm), inclination and rotation are all fully adjustable. Thanks to the numerous adjustments, the whole trigger action is fluid, soft, light and instantaneous.

FREE FLOATING BARREL

The Free-Floating Barrel system represents a cutting-edge design in the world of air-shooting, particularly in precision shooting. This system redefines how an Airguns barrel is positioned and supported within the Airguns frame. The Free-Floating Barrel system allows the barrel to "float" independently within the Airguns frame. This means that the barrel is not in direct contact with the stock or frame. This innovative technical design has a profound impact on accuracy. This enhanced stability and consistency are fundamental to achieving pinpoint accuracy in air-shooting, where even slight variations in the barrel's position or vibration can make a significant difference in where the shot lands.

*S3 Suppressor Patented: EP3023729, US10514224, ZL201580063122.8
 **S4 Suppressor Patented: EP3023729, US10514224, ZL201580063122.8

ADJUSTABLE TRIGGER

The adjustable trigger feature is designed to provide shooters with the ability to customize their shooting experience to achieve the highest levels of accuracy and comfort. This feature allows the shooter to finely adjust the trigger's pull weight, offering a range from 600 grams to 350 grams. By being able to modify the trigger's pull weight, shooters can find the perfect balance that suits their individual preferences. In essence, this adjustable trigger system empowers shooters to fine-tune their rifle's trigger to match their specific shooting style and requirements, whether that's optimized precision or a more relaxed and comfortable shooting experience.

ADJUSTABLE HAMMER SPRING

The hammer spring adjustment empowers shooters to fine-tune the hammer's opening, enabling precise control over the rifle's power output based on the type and shape of pellets used. Another important technological plus that makes Stoeger AIRGUNS rifles increasingly precise, reliable and versatile in every type of use, in hunting small and medium game, in precision sports shooting and in long-distance performance.

S3 SUPPRESSOR PATENTED*

Completely developed from scratch, it is the first suppressor in the world to have an interchangeable front sight and an air decompression chamber that further enhances the performance of the air regulation baffles, optimized to be more performing than the S2 version. The revolutionary design of the S3 Suppressor has made it possible to develop a longer barrel (35 mm), hence with a greater precision of shooting.

S4 SUPPRESSOR PATENTED**

The latest Stoeger AIRGUNS design evolution of the integral silencer system. It combines the Dual-Effect of the baffles and decompression chamber and now the additional compensator technology. The most advanced technology to reduce the noise better than ever. The best in its class.

RX LINE

The RX Line has been developed having in mind a new challenge: the design and implementation of something special that could convey new emotions to both the enthusiastic shooters and those who just want to have fun in the open air or at the shooting range. The RX Line represents the perfect match between technological style, technical efficiency and care for details. The elegant and ergonomic shapes makes the gun fit perfectly to the shooter. Stoeger AIRGUNS and its RX Line translate technology in style.

XM1 LINE

The PCP XM1 Line ensures the best performance in every shooting situation, thanks to the ergo/anatomical studies performed by Italian Engineers (Human Tech Design) and the best weight-stability ratio of the rifle. XM1 has a cutting-edge, distinct and streamlined design with multiple souls: sporty, elegant and innovative. A distinct style of Stoeger AIRGUNS coupled with traits of a sports rifle and hunting rifle. XM1 provides to the shooter a uniquely emotional experience. With its strong personality, pure design and absolute sportiness, PCP XM1 Line is one of a kind.

XRD LINE

The first handgun powered by a CO2 technology branded Stoeger Airguns. Introducing the all-new powered by CO2 technology with 12-gram cartridges, the XRD50 is easy to use and incredibly fun. Designed specifically for training engagements, shooting practice, and domestic self-defense, the XRD50 showcases Stoeger Airguns' dedication to innovation.

01 Comfort rear pad
To provide the best comfort and stability to the shooter

02 Two spacers to adapt the LOP
To the shooter needs, LOP 355 mm max. (med.= 349 mm, min.= 343 mm)

03 Adjustable comb
5 different position (from 0 to +30 mm) to find your best comfort and adapt the rifle to any kind of scopes and shooters

04 Improved ergonomics
The advanced stock design provide multiple grip and shooting position

05 Interchangeable pistol grip
Two different size of pistol grip to provide the best comfort and ergonomics to the shooters

06 Ultimate Thumbhole stock design
For a perfect ergonomics and comfort

07 Adjustable hammer spring
To provide the best power regulation according with the type of pellets used

08 Straight-pull loading system
To provide smooth and fast reload

09 Adjustable trigger pull
From 700 g to 400 g to achieve the maximum accuracy on target and the best comfort

10 Integrated picatinny rail
To provide solid and accurate scope mount

11 Hi-Capacity Magazine
12 rounds in 4,5 mm; 10 rounds in 5,5 mm; 9 rounds in 6,35 mm

12 Aluminum receiver
Lightweight and robust, with strong black matte anodized finishing

13 Decompression chamber and holes
To minimize the air turbulence at the muzzle

14 Air regulator gauge
To check the exact moment to refill the air tank

15 Barrel lengths: XM1 Ranger 600 mm, XM1 Scout 450 mm
Free floating and extra long barrel to provide maximum power and accuracy

16 Threaded muzzle
½" UNF thread to fit various muzzle devices

17 Three picatinny rails
To give at the user the possibility to fit any kind of bipods and accessories

18 Flat style varmint forend
To provide max stability on bench rest

19 Air tank
XM1 Ranger 300 cc - 250 bar
XM1 Scout 200 cc - 250 bar
High air capacity to provide a longer shooting of session before refill

20 Air tank gauge
To accurate check the air tank pressure

4,5 mm/.177: 310 m/s - 1020 fps 5,5 mm/.22: 270 m/s - 890 fps 6,35 mm/.25: 265 m/s - 870 fps

XM1 RANGER

The constant quest for improvement has led Stoeger AIRGUNS to develop two new rifles, the XM1 RANGER and the XM1 SCOUT, expanding the range of the XM1 line, offering ideal solutions for small and medium game hunting, as well as long-range and precision shooting.

INCLUDED WITH THE RIFLE

PRO ADAPTIVE LENGTH
Length of pull adjustable with spacers for optimal comfort

ADJUSTABLE COMB
5 different position (from 0 to +30 mm) to find the best comfort and adapt the rifle to any kind of scopes and shooters

INTERCHANGEABLE PISTOL GRIP
Two different size of pistol grip to provide the best comfort and ergonomics to the shooters

STRAIGHT-PULL LOADING SYSTEM
To provide smooth and fast reload

THREE PICATINNY RAILS
To give at the user the possibility to fit any kind of bipods and accessories

ADJUSTABLE HAMMER SPRING
To provide the best power regulation according with the type of pellets used

ADJUSTABLE TRIGGER
From 700 g to 400 g to achieve the maximum accuracy on target and the best comfort

THE STOEGER AIRGUNS XM1 SCOUT HAS BEEN AWARDED BY THE PRESTIGIOUS GUNS & AMMO AS AIR GUN OF THE YEAR 2024

This year's innovation was the introduction of the air gun category, in which the PCP XM1 SCOUT rifle fully met the requirements set by the Outdoor Sportsman Group (OSG) in Grand Junction, Colorado. Only the most innovative and cutting-edge products available in 2024 were selected and evaluated by the Guns & Ammo staff to determine the best product of the year. The voting concluded with the awarding of the AIR GUN OF THE YEAR award to the XM1 SCOUT model from Stoeger AIRGUNS.

The rifle was awarded in terms of excellence: build quality, material quality, and technological innovation. All factors that contribute to ballistic performance at a very high level. The unmistakable know-how of Stoeger AIRGUNS in the field of air rifles is combined with a constant process of design and research, generating innovative solutions while also paying attention to style and design, completely made in Italy.

4,5 mm/.177: 295 m/s - 965 fps 5,5 mm/.22: 255 m/s - 840 fps 6,35 mm/.25: 245 m/s - 805 fps

XM1 SCOUT

XM1 SPORT

The all-new XM1 SPORT rifles feature important technical solutions, technologies, and two improvements in order to meet the shooters who like to compete in amateur competitions and hit a new niche of market for the brand. The Main features are the new Match Trigger that allows the end user to regulate the trigger, the new Muzzle Brake that allows the rifles to be more accurate reducing the turbulence on the pellets fired, the iconic XM1 Design, and the ergonomics of the rifles, the modularity thanks to the Stoeger AIRGUNS MGS Technology.

INCLUDED WITH THE RIFLE

PRO ADAPTIVE LENGTH
Length of pull adjustable with color spacers for optimal comfort

ERGONOMIC BOLT LEVER
With exclusive THRIDION checkering for maximum grip

LEFT SIDE PICATINNY RAIL
Multi-use Picatinny rail integrating a rack for 3 spare magazines

MATCH TRIGGER
Adjustable trigger on 3 axis (X/Y/Z)

HIGH PRECISION
XM1 PCP rifle can perform the best accuracy in its category with a 5 shot group

XM1 - TECHNICAL FEATURES

Caliber	4,5 mm /.177 - 5,5 mm /.22	Weight (+/- 0,1)	2,5 Kg
Power source	Precharged pneumatic (PCP) with integrated regulator	Velocity cal. 4,5 mm (+/- 2%) 0,69 g pellet	Up to 280 m/s - 920 fps
Cocking system	Bolt Action	Velocity cal. 5,5 mm (+/- 2%) 1,37 g pellet	Up to 220 m/s - 720 fps
Trigger System	Single stage trigger - Adjustable slide trigger (-4mm/+8mm)	Max energy delivered (+/- 2%)	Cal. 4,5 mm /.177: 27J - Cal. 5,5 mm /.22: 34J
Safety	Manual on trigger guard	Cylinder Pressure	200 BAR / 2900 PSI fill pressure / Integrated pressure gauge
Sight / Scope Rail	Adjustable sight - 11 mm dovetail	Cylinder Size	100cc
Stock	Human Tech Design Synt. Stock - Ergonomic Features - MGS Technology Ambidextrous Stock Design - 2 interchangeable combs	Rotary magazine	9 shots magazine in cal. 4,5 mm /.177 - 7 shots magazine in cal. 5,5 mm /.22
Finish	Black Synthetic stock - Black anodized receiver - blued steel air cylinder	Included in the box	Charging connector, 1 magazine, 2 side rails, MGS kit, instruction manual, spare O-rings
Total length	Sport 1019 mm / 40.2" - Sport Suppressor 1090 mm / 42.9"	Suggested for	Small game hunting / Varmint control / Target shooting
Barrel	500 mm -Free floating - Rifled, blued steel barrel - Muzzle brake Twist rate (mm) 1:480

THE EVOLUTION OF SILENCE

PATENTED S3 SUPPRESSOR

Stoeger AIRGUNS **Patented* S3 Suppressor**: the ultimate innovation in the airguns industry. Completely developed from scratch, it is the first suppressor in the world to have an **interchangeable front sight** and an **air decompression chamber** that further enhances the performance of the new **air regulation baffles**, optimized to be more performing than the S2 version. The revolutionary design of the **S3 Suppressor** has made it possible to develop a **longer barrel (35 mm)**, hence with a greater precision of shooting.

Innovation, Technology and Style are the three principles behind our "Human Tech Design" philosophy. The Stoeger AIRGUNS RX20 S3 incorporates the very best in style and performance. The S3 Suppressor System combines the functions of an internal air regulation baffles and the new decompression chamber, that work in tandem to reduce noise better than any other airguns on the market.

PELLETS

ACCURACY TO MEET EVERY REQUIREMENT FOR AIR RIFLES

Every shooter has specific requirements for his airgun when it comes to the ammunition. Our finely classified programme with a wide range of pellet shapes and weights will satisfy every need. Accuracy is a combination of several variables, the quality of the pellets is most important. Stoeger AIRGUNS pellets are Made in Germany with high tech technology.

PRACTICE TARGET

Lightweight accurate pellet for training and hobby shooting. Meets all underlying requirements. For universal use, at an extremely favourable price.
Cal. 4,5mm / .177 and 5,5mm / .22

GREAT PENETRATION

Medium-weight, very accurate pellet for hunting and precision shooting at medium ranges. Aerodynamic design for flat trajectories and perfect penetration.
Cal. 4,5mm / .177 and 5,5mm / .22

MAX SHOCK

Heavy, accurate hunting pellet for medium ranges. High impact and penetration with maximum shock effect, with blood grooves.
Cal. 4,5mm / .177 and 5,5mm / .22

SUPER ACCURATE

Extremely accurate competition and training pellet for performance-oriented shooters. Tight shot groups, clean-cut bullet holes, excellent value for money.
Cal. 4,5mm / .177 and 5,5mm / .22

MAX PENETRATION

Heavy, exceptionally accurate pellet for long ranges. No lead-fouling, improved drive in barrel, no contact with lead thanks to special copper coating (20% harder than comparable lead pellets). First-class aerodynamic design for high impact and penetration. Low deformation of pellet. Tight shot groups.
Cal. 4,5mm / .177 and 5,5mm / .22

HIGH SHOCK, MAX IMPACT

Heavy, exceptionally accurate hunting pellet for long ranges. Advanced X-HOLLOW design with deep hollow point and best aerodynamic properties for maximum impact, high penetration and controlled deformation of pellet. Tight shot groups.
Cal. 4,5mm / .177 and 5,5mm / .22

6-PACK 4.5MM / .177 DIFFERENT PELLETS

Test all our premium pellets in your airgun and choose the most appropriate for you:

- Velocity
- Shock effect
- Penetration

X-MATCH (40 Pellets) - X-POWER (35 Pellets)
X-MAGNUM (30 Pellets) - X-HOLLOW (30 Pellets)
X-HUNT (40 Pellets) - X-SPORT (40 Pellets)

Stoeger AIRGUNS reserves the right to make modifications to the products shown in this catalogue at any time without prior notice. The finishings shown in this catalogue are approximate, as a printed reproduction causes inevitable colour differences.
