

## THE NEW CHALLENGE

The RX Line has been developed having in mind a new challenge: the design and implementation of something special that could convey new emotions to both the enthusiastic shooters and those who just want to have fun in the open air or at the shooting range. The RX represents the perfect match between technological style, technical efficiency and care for details. The elegant and ergonomic shapes makes the gun fit perfectly to the shooter. Stoeger AIRGUNS and its RX Line translate technology in style.

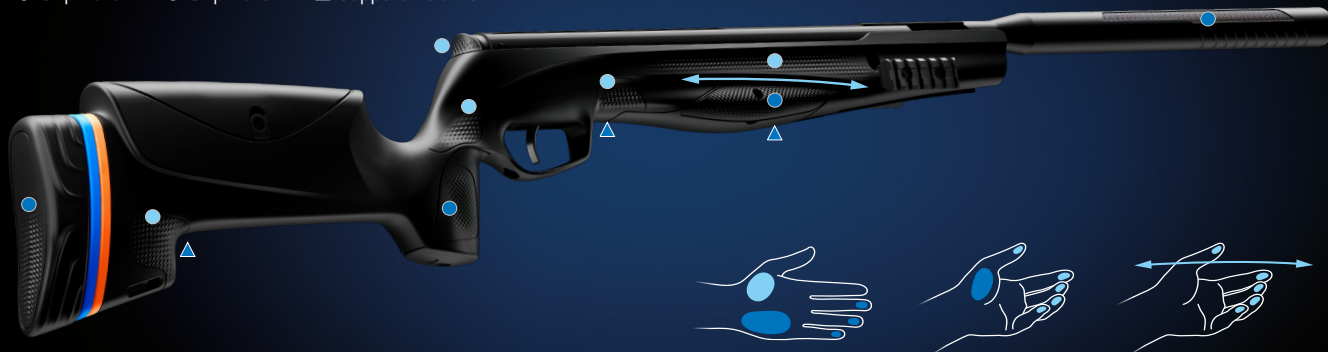

The RX Line is the first compressed air rifle inspired by Urbino, a world heritage city, the cradle of Humanism. With the RX Line, Stoeger AIRGUNS combines Urbino's technical inspiration with the innovative vision of Milan's designers whose experience in Industrial Design (ID) and User Experience (UX) is able to transform their technical inspirations into solid and attractive projects. Just thanks to this combination, Stoeger AIRGUNS creates a new method, based on 3 sound compact concepts: **Functional Ergonomics, User Interaction study, User Experience.**

## FUNCTIONAL ERGONOMICS

## USER INTERACTION STUDY

● Grip Level 1 ● Grip Level 2 ▲ Support Volume

## USER EXPERIENCE

## THE MOST ADJUSTABLE AND CUSTOMIZABLE AIR RIFLE STOCK IN THE WORLD IN IT'S CATEGORY

The quick adjustable cheekpiece is a unique design specifically made for the **RX20TAC** by Italian engineers

Optimized for control and comfort

Greatest ergonomics stock ever

## PATENTED S<sup>2</sup> SUPPRESSOR

The DNA of a **Stoeger AIRGUNS** is extrapolated from some of the most elite pedigrees and performance collaborations in the shooting industry. **Stoeger AIRGUNS** innovation and design is the expression of dynamic entrepreneurial spirit.

Advanced approach in Research and Development, the Italian designers developed the first integral **DUAL-STAGE™** silencer for airgun on the market. The **Patented\* S<sup>2</sup> SUPPRESSOR** technology is tuned for ultra-quiet shooting.

### S<sup>2</sup> SUPPRESSOR - DUAL STAGE™ QUIETEST TECHNOLOGY

The innovative **Patented\* S<sup>2</sup> SUPPRESSOR** utilizes the Dual-Stage Reduction System. This system combines the functions of an internal air-regulator ring and baffles that work in tandem to reduce noise better than any other air rifle on the market.

Assembled on a CNC machined breach for perfect adjustment.

**RX20TAC - BARREL**

**PISTOL GRIP/PADS** Included with the rifle

**RX20TAC** has identical external style to **RX20TAC S2 SUPPRESSOR** but without internal Suppressor technology. **RX20TAC** longer barrel **+95 mm** extends to the muzzle.

## RX20TAC - TECHNICAL FEATURES

Caliber	4,5 mm /.177 - 5,5 mm /.22
Power source	Spring or Gas Ram and Piston
Cocking system	Break-action breech-loader with ergonomic cocking grip
Trigger	Stoeger AIRGUNS Adjustable trigger T2 - double stage
Safety	Automatic, ambidextrous safety mounted on back of receiver
Front sight	Hooded front sight with a red fiber-optic
Rear sight	Fiber-optic, fully adjustable for elevation and windage
Stock	Human Tech Design Stock with ProAdaptive Checkering and Multi Grip System MGS
Finish	Black Synthetic - Rifled, blued steel barrel
Rail for scope	Integral dovetail scope rail on receiver
Scope for combo	3-9x40AO scope with high power mount
Total length	44 in. / 1.122 mm
Barrel length	18 in. / 461,8 mm
Weight	3 Kg without scope
LOP	Max 370 mm - Medium 363 mm - Low 356 mm
Velocity cal.4,5 mm with alloy pellet	360 m/s - 1200 fps
Velocity cal.4,5 mm with lead pellet	305 m/s - 1000 fps
Velocity cal.5,5 mm with lead pellet	240 m/s - 800 fps
