

1 LINE 3 PERSONALITIES

The XRD Line brings Stoeger Airguns design, ergonomics and ease of use into the CO2 handgun segment. From the high-impact .50 caliber XRD50 to the pellet-focused XRD17 and XRD22, the range is designed to make recreational shooting simple, engaging and accessible.

Each model is positioned for a clear consumer need: power and dynamic fun with XRD50; simple and accurate pellet shooting with XRD17 and XRD22.

XRD POSITIONING: a CO2 handgun platform that combines attractive design, simple operation, reliable recreational performance and accessible pricing.

CHOOSE THE XRD THAT FITS YOUR SHOOTING STYLE

XRD is the Stoeger Airguns CO2 handgun line for users who want to train, have fun and enjoy recreational shooting with style. **XRD50** builds impact and differentiation. **XRD17** and **XRD22** build precision, accessibility and volume.

XRD50

HIGH-IMPACT FUN

A .50/12,7mm caliber CO2 revolver designed for plinking, paintball, dynamic practice and controlled domestic use where legally permitted. Smoothbore barrel, 6-shot magazine and up to 12.7 joules.

XRD22

STRONGER PELLET FEEL

A rifled-barrel CO2 pistol for .22/5.5mm lead pellets. Built for recreational target shooting with a more solid pellet impact and accessible operation.

XRD17

EASY PRECISION

A rifled-barrel CO2 pistol for .177/4.5mm lead pellets. Ideal for target shooting, plinking and a first approach to handgun shooting with easy handling and controlled power.

XRD LINE

MODEL	BEST FOR	BARREL	MAIN CONSUMER
