ANNIVERSARY
2008-2018

RX

THE NEW CHALLENGE

The RX line has been developed having in mind a new challenge: the design and implementation of something special that could convey new emotions to both the enthusiastic shooters and those who just want to have fun in the open air or at the shooting range. The RX represents the perfect match between technological style, technical efficiency and care for details. The elegant and ergonomic shapes makes the gun fit perfectly to the shooter. Stoeger AIRGUNS and its new RX line translate technology in style.

*Human
Tech Design*

The new RX Line is the first compressed air rifle inspired by Urbino, a world heritage city, the cradle of Humanism. With the new RX line, Stoeger AIRGUNS combines Urbino's technical inspiration with the innovative vision of Milan's designers whose experience in Industrial Design (ID) and User Experience (UX) is able to transform their technical inspirations into solid and attractive projects. Just thanks to this combination, Stoeger AIRGUNS creates a new method, based on 3 sound compact concepts: **Functional Ergonomics, User Interaction study, User Experience.**

Stoeger Airguns

PROADAPTIVE CHECKERING

Stoeger AIRGUNS **ProAdaptive Checkering** is the first technical result of our new "Human Tech Design" philosophy. It is the most versatile, efficient and progressive checkering developed so far, one of a kind. It is the result of a project which let shooters expose themselves to a new experience, become one with the airgun and find a perfect feeling with it. The special checkering progression actively and comfortably "fits" the gun, no matter the environment shooters find themselves in.

MULTI GRIP SYSTEM

Stoeger AIRGUNS offers a shooter the choice of the favourite Grip thanks to the new **Multi Grip System** technology which, by means of an easy and intelligent system, let the rifle grip be changed with the most appropriate grip. Finally, shooters can adapt the rifle to their own style, choosing between an Embossed Grip or the innovative Stoeger AIRGUNS ProAdaptive Checkering.

NEW PATENTED S3 SUPPRESSOR

The Evolution of Silence

The new Stoeger AIRGUNS **Patented S3 Suppressor**: the ultimate innovation in the airguns industry. Completely developed from scratch, it is the first suppressor in the world to have an **interchangeable front sight** and an **air decompression chamber** that further enhances the performance of the new **air regulation baffles**, optimized to be more performing than the S2 version. The revolutionary design of the new **S3 Suppressor** has made it possible to develop a **longer barrel (35 mm)**, hence with a greater precision of shooting.

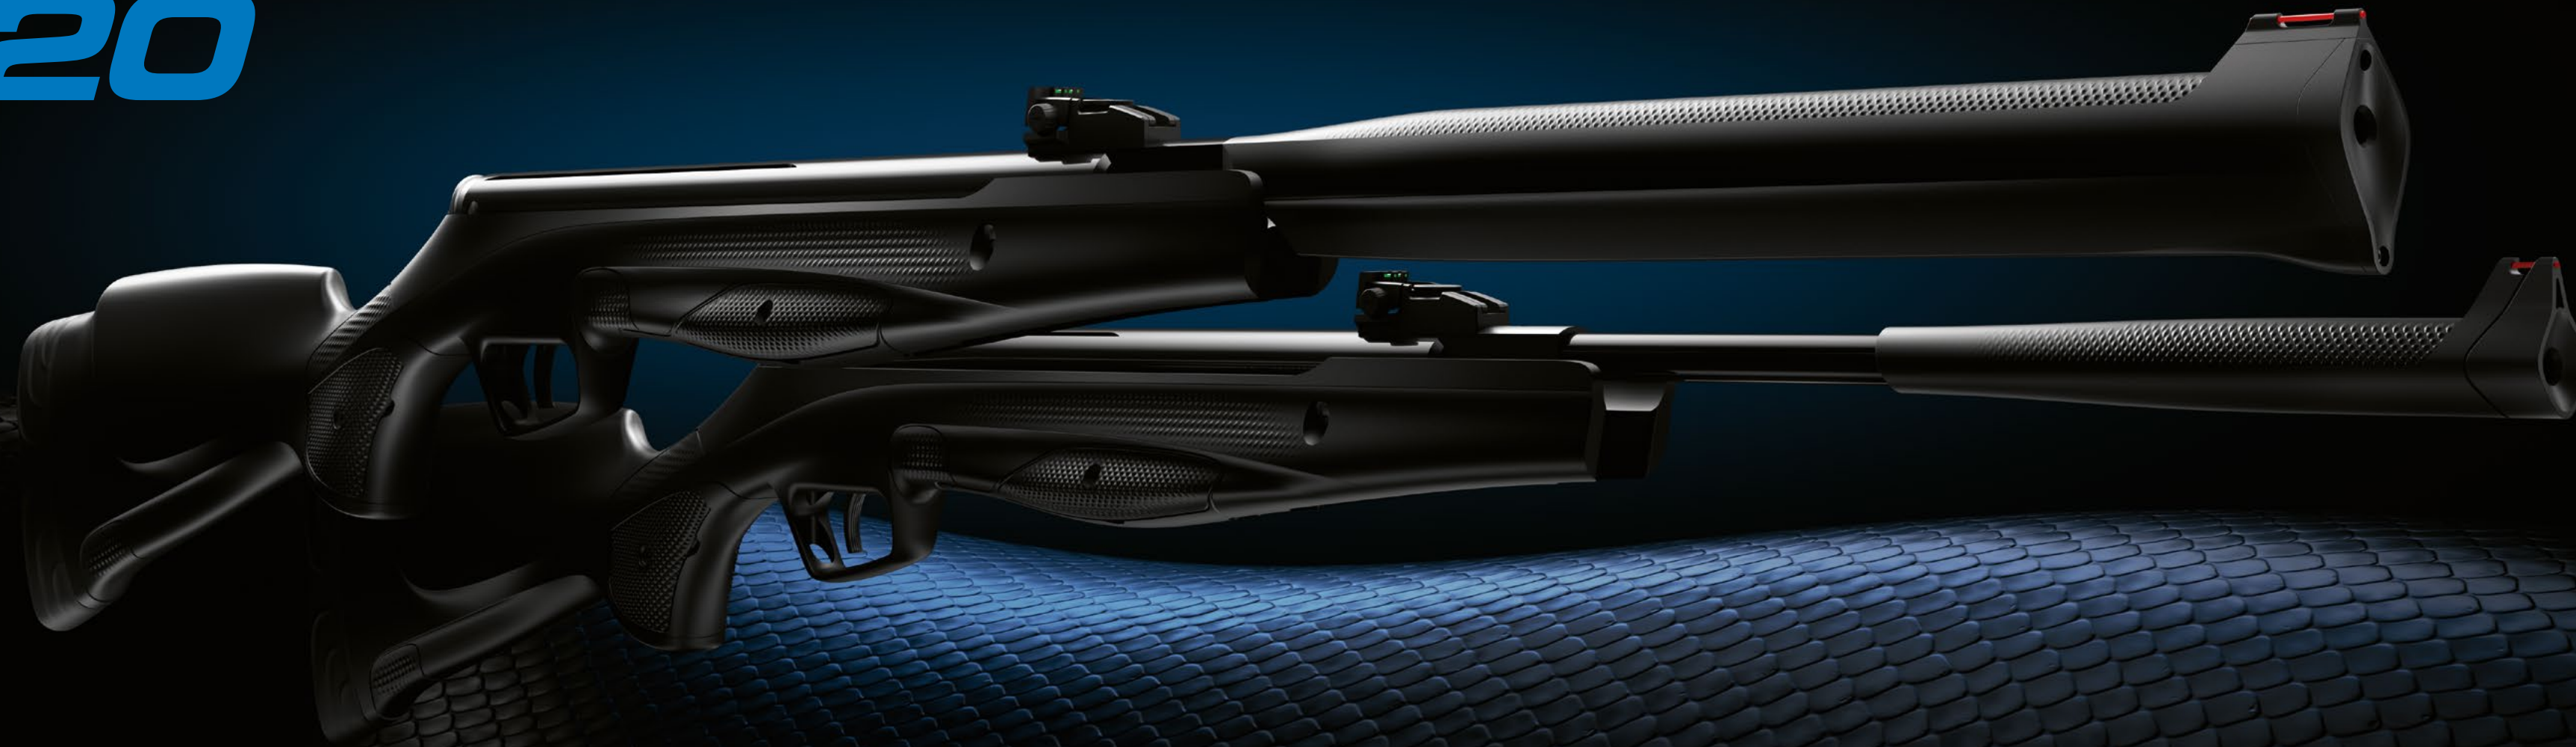

Innovation, Technology and Style are the three principles behind our new "Human Tech Design" philosophy. The new Stoeger AIRGUNS RX20 S3 incorporates the very best in style and performance. The new S3 Suppressor System combines the functions of an internal air regulation baffles and the new decompression chamber, that work in tandem to reduce noise better than any other airguns on the market.

RX20 - PERFECT FEELING

Innovation, Technology and Style are the three principles behind a fully new concept. Stoeger AIRGUNS designer's new challenge has been to develop and implement something special that could convey new emotions. The unique design and ergonomic shapes makes the air rifle fit perfectly to the shooter.

Safety Button with ProAdaptive Checkering

Recoil absorbing pad with ProAdaptive anti slip checkering

New adjustable T2 double stage trigger

New Interchangeable front sight (S3 Suppressor - Sport) with red and orange fiber optic

New Multi Grip System - Black ProAdaptive Checkering - Blue and Orange embossed

RX20 S3 SUPPRESSOR / RX20 SPORT / RX20 DYNAMIC - TECHNICAL FEATURES

Caliber	4,5 mm /.177 - 5,5 mm /.22	Finish	Black Synthetic - Rifled, blued steel barrel
Power source	Spring or Gas Ram and Piston	Rail for scope	Integral dovetail scope rail on receiver
Cocking system	Break-action breech-loader with ergonomic cocking grip	Scope for combo	4x32 with high power mount
Trigger	New Stoeger AIRGUNS Adjustable trigger T2 - double stage	Total length	S3 Suppressor / Sport: 44 in. / 1.122 mm - Dynamic: 42 ^{1/2} in. / 1.080 mm
Safety	Automatic, ambidextrous safety mounted on back of receiver	Barrel length	S3 Suppressor: 14 in./366,7 mm - Sport: 18 in./461,8 mm - Dynamic: 16 ^{1/2} in./419,7 mm
Front sight	Interchangeable front sight (S3 Suppressor, Sport) Hooded front sight with a red and orange, fiber-optic	Weight	3 kg without scope
Rear sight	Fiber-optic, fully adjustable for elevation and windage	Velocity cal.4,5 mm with alloy pellet:	360 m/s - 1200 fps - Velocity cal.4,5 mm with lead pellet: 305 m/s - 1000 fps
Stock	Human Tech Design Stock with ProAdaptive Checkering and Multi Grip System MGS	Velocity cal.5,5 mm with lead pellet:	240 m/s - 800 fps

RX20 video

ACCURACY TO MEET EVERY REQUIREMENT FOR AIR RIFLES

Every shooter has specific requirements for his airgun when it comes to the ammunition. Our finely classified programme with a wide range of pellet shapes and weights will satisfy every need. Accuracy is a combination of several variables, the quality of the pellets is most important. Stoeger AIRGUNS pellets are Made in Germany with high tech technology.

PRACTICE TARGET

Lightweight accurate pellet for training and hobby shooting. Meets all underlying requirements. For universal use, at an extremely favourable price. Cal. 4,5mm /.177 and 5,5mm /.22

SUPER ACCURATE

Extremely accurate competition and training pellet for performance-oriented shooters. Tight shot groups, clean-cut bullet holes, excellent value for money. Cal. 4,5mm /.177 and 5,5mm /.22

GREAT PENETRATION

Medium-weight, very accurate pellet for hunting and precision shooting at medium ranges. Aerodynamic design for flat trajectories and perfect penetration. Cal. 4,5mm /.177 and 5,5mm /.22

MAX PENETRATION

Heavy, exceptionally accurate pellet for long ranges. No lead-fouling, improved drive in barrel, no contact with lead thanks to special copper coating (20% harder than comparable lead pellets). First-class aerodynamic design for high impact and penetration. Low deformation of pellet. Tight shot groups. Cal. 4,5mm /.177 and 5,5mm /.22

MAX SHOCK

Heavy, accurate hunting pellet for medium ranges. High impact and penetration with maximum shock effect, with blood grooves. Cal. 4,5mm /.177 and 5,5mm /.22

HIGH SHOCK, MAX IMPACT

Heavy, exceptionally accurate hunting pellet for long ranges. Advanced X-HOLLOW design with deep hollow point and best aerodynamic properties for maximum impact, high penetration and controlled deformation of pellet. Tight shot groups. Cal. 4,5mm /.177 and 5,5mm /.22

6-PACK 4.5mm /.177 DIFFERENT PELLETS

Test all our premium pellets in your airgun and choice the most appropriate for you:

- Velocity
- Shock effect
- Penetration

X-MATCH (40 Pellets) - X-POWER (35 Pellets)

X-MAGNUM (30 Pellets) - X-HOLLOW (30 Pellets)

X-HUNT (40 Pellets) - X-SPORT (40 Pellets)

TEN YEARS OF PASSION AND ITALIAN DESIGN

The DNA of a Stoeger AIRGUNS is extrapolated from some of the most elite pedigrees and performance collaborations in shooting. From its Italian precision to American strength, a Stoeger is truly one of the most refined and valued on the airgun market today. With a Stoeger, whether novice or expert, you'll be performing with the best of them.

BORN INTO A GREAT FAMILY

Since 1924 in USA Stoeger has been linked to airguns. The first significant introduction of imported adult airguns was made by the Stoeger Arms Co. in a Catalogue prior to WWII. Stoeger AIRGUNS is a brand of the Beretta firearms manufacturing dynasty, launched on the global airgun market in 2008, a new niche for Beretta Group, in synergy with Italian Engineering and Design, special engineer in airguns, Beretta experience in the hunting, shooting and optic industry and own Beretta distribution forces. The story of Stoeger AIRGUNS began with a new vision. Vision that later became reality.

FASCINATING STYLE

Fascination is our design philosophy. The designers at Stoeger AIRGUNS are involved between the heritage of tradition and modernity to develop fascinating airguns. From the initial development concept to the production, Stoeger AIRGUNS reflects amazing harmony of the design concept, where is the result of design follows function emotion and intelligence. Each individual product interprets this design philosophy. Thereby each airgun shows a unique style, although recognizable as a Stoeger AIRGUNS.

INGENIOUS TALENT

Stoeger AIRGUNS innovation is the expression of dynamic entrepreneurial spirit. Advanced approach for more power GAS RAM TECHNOLOGY, great efficiency and accuracy but also DUAL STAGE S² SUPPRESSOR technology for ultra-quiet comfort. Strong power and accuracy for emotive, authentic shooting experiences.

QUALITY CONTROL

Strict quality control procedures from the Italian firearm industry supervised by a high qualified team. Stoeger AIRGUNS brand is anchored in the shooting society. In all continents a community of hundreds of thousands customers appreciate their airgun unique character.
